“ My dear brother Brian was the youngest of us three children. He came along about ten years after myself and his sister Ann Marie Roebuck. I'm the oldest age 76 and my sister Ann a year younger. Brian was always interested in model cars, airplanes, and such.

He was an engineer even as a young boy trying to make things go, i.e. race little cars, fly airplane models etc. His older brother, "Me" kinda pushed him along maybe a little too much at times.

That said, he and I never fought growing up. I remember coming home while in the service and Brian was feeling bad during his NC State Aerospace learn curve and he said I don't know if I can do this. I responded with something like Brian, you are the one that will succeed and get a degree. Don't end up like me in the service, keep going. Well he did and I am so proud of him and his accomplishments. We shared Amateur Radio, Caving, and swapping vehicles over the years. I just wish we were closer so we could have worked together and built some cool stuff together. Thank you my dear brother for your kind nature and support over the years. ❤️

“ Lynn, my heart is breaking for you. You are in my thoughts and prayers as you navigate thru this. I absolutely love the picture you chose of Brian...it is so fitting of him and his persona. He was a true friend, gentleman and certainly a kind gentle soul. We all are better folks for having the blessing of calling him a friend. So sorry that I couldn't be there in person to hug you and see you. Take care of yourself. Send Shanda my love as well.
