“ *Dear friends. I'm deeply saddened by your recent loss. Once you met Dave he was hard to forget. Smart, argumentative, but willing to listen to the point of view of others; and, after giving a topic some thought, could either agree that you were right, or, just as easily, show you where you made your mistake. Dave was respected for his professionalism and dedication to both work and family. He will be sorely missed by his fellow engineers, family and friends.*
