“ For the best 10 to 12 years I have learned to really love James Brown. The funniest new memory is he says star if you can be anything it has to be in a jar and he always wanted me to make him cornbread and send it down to his house by his brother so one time I made meatloaf and I put a part of the meatloaf in a mason jar and sent it to Jimmy he thought that was hilarious that and the fact you love my cornbread will be forever edged in my head. I know that Johnny and him shared a lot of things and spent a lot of good times and that'll help him through this time that he has to grieve. When you get past the exterior Jimmy was a wonderful human being and will be truly missed Love star and Johnny
