“ *I have always known of Phil's dedication to his country. I loved the great stories that he would tell. Some hard to believe but all true. I loved the way that he accepted me into the family when I married his sister in-law Fran. He treated Fran and I like family from day one.*

*Thank you Phil for sharing your family and the love of country with Fran and I. I only wish that I would have spent more time visiting with him. Goes to show that tomorrow is promised to no one. Hug when you can and say I Love You while you have the opportunity. I miss you already RIP Phil and God be with Patty*

“ *Master Chief Phil "Peaches" Jones, my friend and mentor. I meet Peaches in 1976 when I checked aboard the USS Forrestal. Then AC1, took me under his wing, trained me, developed me and by example showed me what true leadership was. Though a young airman in the Navy, it was not until later in my career did I fully grasp what Peaches had done for me. Through the years, I had spoke to many Sailors that came in contact with Peaches that told similar stories. Peaches was a great man and dedicated leader, he will be missed by all. I recall one of his most notable quotes when making his point.....(What's REF "A"). To Peaches family my god bless you and our prayers will always be with you.*

“ *Master Chief Peaches Jones more than any other Sailor has had a lasting positive impact on my life. I will always be thankful to him and I hold him in the highest esteem. I was fortunate enough to spend many underway periods during the certification of the AN SPN46A/T system from 84-87 onboard the JFK. Between recoveries, he would hold court with all of us junior and highly impressionable Sailors; sharing a sea story, teaching air traffic control procedure, and just setting a positive personal example for what a Sailor and man should be. Although, I had lost contact with him over the years, I still look up to him, and just conveyed to an ole shipmate how Peaches what an outstanding leader he was. More than anything else, I recall his uncanny ability to cut through the chaff, get to the source of the problem, and convey in a common sense workable solution that everyone could understand. I retired as a Master Chief and I am honored to say that Master Chief Peaches Jones was a Master Chief's, MASTER CHIEF; and he will be missed! Sincerely, Robert Peddie*

“ *When someone you love dies, you never get over it, you just slowly get through each day. But you keep them tucked safely in your heart. Peaches will always be remembered by lots of people to be a caring and honest man. He always said to me, "Earl" take care of your people and they will take care of you. As usual, he was right again. Its so hard to say goodbye, but only hope that we will see each other again. Forever grateful my friend, Butch "Earl" Helmick*
