“ I knew Teresa when I was in middle school. She was a great friend, and I've often tried to find her. I knew her Brother and sister also. I hate to see this now. She was a really sweet girl and I wish I could have found her sooner .I am so so sorry for her family. I never guessed she would still be with Mike! I was younger than them, but I was also friends with Mike's brother, Ron. This is several years after her passing, I send love and condolences to her remaining family. I am so sorry for your loss.
